

Westlaw Combined Enhancements

A comprehensive userscript that enhances the Westlaw reading experience with customizable typography, layout controls, and navigation shortcuts.

Features

Typography Controls

- **Font Size:** Adjust document font size (10-36px)
- **Line Height:** Fine-tune line spacing (1.0-3.0, 0.1 increments)
- Maintains proper scaling for headings and footnotes

Layout Controls

- **Margins:** Symmetrical left/right margin adjustment
- **Sidebar Toggle:** Hide/show the right sidebar for distraction-free reading
- **Focus Mode:** Hide header and footer elements while keeping navigation functional

Navigation Shortcuts

- **N** or **Right Arrow:** Next search term
- **Left Arrow:** Previous search term
- **Up Arrow:** Scroll to top of document
- **Enter:** Copy document with reference and switch to notes

Persistent Settings

- All settings are saved per domain
- Automatically restored when returning to Westlaw

Installation

1. Install Violentmonkey or Tampermonkey
2. [Click here](#) to install the script (requires local server)
3. Or copy the script content and create a new userscript manually

Usage

Menu Controls

All controls are accessible through the userscript menu (click the Violentmonkey icon):

- **Font Size:** Increase/Decrease/Reset
- **Line Height:** Increase/Decrease/Reset

- **Margins:** Increase/Decrease/Reset
- **Sidebar:** Show/Hide toggle
- **Focus Mode:** Toggle header/footer visibility
- **Navigation:** Next/Previous/Top/Copy commands
- **Status:** View current settings

Keyboard Shortcuts

Navigation shortcuts work when not typing in input fields:

Key	Action
N or →	Next search term
←	Previous search term
↑	Scroll to top
Enter	Copy & switch to notes

Notes Integration

The script includes smart notes file switching: - Automatically switches to existing notes file after copying - Creates persistent notepad if no notes file exists - Handles multiple Westlaw tabs intelligently

Compatibility

- **Browsers:** Chrome, Firefox, Safari, Edge
- **Userscript Managers:** Violentmonkey, Tampermonkey
- **Westlaw:** All document types and interfaces

Version

Current version: **1.2**

Support

This script enhances the Westlaw experience without modifying the underlying functionality. All changes are cosmetic and reversible.
